

Quick Facts: DataTribe Challenge 2020

DataTribe Challenge:

The DataTribe Challenge is a competition to identify technology startups with a vision to disrupt cybersecurity and data science. The three finalists will split \$20,000 in prize money, and one may receive up to \$2 million in seed capital from DataTribe.

Contestants have until **October 30th** to apply at <https://datatribe.com/challenge/>. On **December 1st**, DataTribe will announce up to three finalists. These teams will then have until **December 9th** to refine their pitch and prepare for final judging, with assistance from the DataTribe's team of startup veterans. The finalists will present their pitches and answer questions from the judges on **December 10th** in our virtual competition.

Requirements:

1. Company must be pre-Series A.
2. Maximum funding to date cannot exceed \$1.2M.
3. Company must have an Enterprise, Big Data, or Cyber Security product, beta, MVP or concept to present.
4. Practical experience in national security, defense, National Labs or R&D organizations from Australia, Canada, New Zealand, United Kingdom, and the United States is preferred, but not required.
5. Teams with appropriate commercial and startup experience will be given additional consideration.
6. The company's proposed solution should be suitable for funding at some level to take it further.
7. The company's proposed solution should not be in violation of any intellectual property rights as far as the teams are aware.
